Go N. on U.S. 6. Approach S. 4 Mi. to Pecosita Canyon Road
Go R. (E.) About 1/2 M. to entrance
Pecosita Canyon State Park. Follow map.

Road from valley to wilderness is not advisable
due to washouts and slides. It should be traveled
by 4WD.
The well is located approx. 220' E and 15' S of W4C1, Sec. 3. It is on a
but on the side of a hill.

The 4 10" casing is capped with a welded steel
flange that is level with the ground surface.
There is no evidence of any gas, oil or water
sleeper. The well is in an unobstructed area,
next to the current residence.
Notes:
1. Bond on this well has been cancelled.
2. Mr. Pecchio rejects any responsibility for the well.
3. The well is capped and not in a hazardous condition.
4. It is not proper to officially abandon this well in its present condition as a 25-ft surface plug would have to be placed.
5. When we take up the subject of idle wells for which we have no bonds, we might settle this well with a memorandum closing well record.
MEMORANDUM OF TELEPHONE OR PERSONAL CONVERSATION

Inglewood, Calif.

October 9, 1962

Operator: Doraline, Valley

Field: Los Angeles

Well No.: "Bevel Delay"

Mr. J. D. Willhoit, Agent  
Vincent J. Puccio & Carl Doshay  
326 American Avenue  
Long Beach, California

Dear Sir,

In accordance with your letter dated September 2, 1953, the following change pertaining to your well No. "Puccio-Doshay" 1, Sec. 3, T. 3 N., R. 15 W., S.B. B. & M., field, District No. 1, is being made in our records:

☐ The corrected location is: 

☐ The corrected elevation is: 

☐ Report No. , dated , has been corrected as follows: 

☐ Your notice to drill dated October 25, 1951, and our report No. P. 1-50772, issued in answer thereto, are hereby cancelled inasmuch as the work will not be done.

☐ Other: The State Oil and Gas Supervisor will be requested to return the drilling bond filed by you.

cc Mr. R. D. Bush (2)

Yours truly,

R. D. Bush  
State Oil and Gas Supervisor

VINCENT J. PUCCIO &
CARL DOSHAY well No. "Puccio-
Doshay" 1, Sec. 3, T. 3 N.,
R. 15 W., S.B.B.&H., Los
Angeles County

Inglewood

The notice for the above well was filed in October 1951 and canceled in
October 1953 in accordance with a letter signed by both Mr. Puccio and
Mr. Doshay.

In the course of compiling the list of exploratory wells abandoned, I
found the well listed in the Division of Mines and Geology Bulletin 45
as having been drilled to 1200 feet. The scout sheets in the office of
Shell Oil Company in Ventura confirm this fact, and I have recently ob-
tained from Munger's Scouting Service a history of the drilling.

In recent telephone conversations with Mr. Puccio, I learned that he has
in his files a copy of the electric log and an old log book showing dates
and details of the work done. I was able to obtain from Mr. Puccio a
copy of the electric log; the log book covers only the drilling from
979 feet to the total depth of 1200 feet and shows no details of interest
other than the running of an electric log.

Therefore, I am reactivating the record of this well and canceling our
Form 165 dated October 6, 1953.

Deputy Supervisor

**LOG**

[Blank log with columns for date, depth, andRemarks]
It is of the greatest importance to have a complete history of the well. Use this form to report a full account of all important operations during the drilling and testing of the well or during re-drilling, altering of casing, plugging, or abandonment with the dates thereof. Be sure to include such items as hole size, formation test details, amounts of cement used, top and bottom of plugs, perforation details, sidetracked junk, bailing tests, shooting and initial production data.

MEMORANDUM CLOSING WELL RECORD

Date, Nov. 14, 1963...

Operator VINCENT J. FUCCIO & CARL DOSHAY BOSKOW County Los Angeles

Well No. "Fuccio-Doshay" 1 Sec. 3 T. 3 N. R. 15 W SB B & M

Last Notice Filed: Intention to drill - October 25, 1951
(Type of notice and date)

Status of Records: (State whether complete; what records missing; what efforts made to secure records)

Records are incomplete - Summary, log and core record, and history missing.

Driller's log in possession of Mr. Fuccio shows depths and dates between 976' and 1200'. Obtained electric log and tried to obtain remainder of driller's log from W. T. Corwin. No answer.

Condition of well and location: (Give all available data and show source. State whether damage might occur.)

In all probability the hole was left full of drilling mud. There is 12" C conductor casing set at unknown depth and it is capped with a welded steel plate level with the ground. There is no evidence of seepage of oil, water or gas, no likelihood of damage, no possible hazard. No salt water. The well is located in a remote uninhabited area.

Bond Data: Bond was returned for cancellation as per letter dated October 6, 1953, based on false statement contained in letter signed by Mr. Fuccio and Mr. Doshay.

Status of Operator: INACTIVE
(Active or inactive. Agent required or not?)

Form 148 sent?

This well is classed as indicated by X mark:

1. Abandoned
2. Deserted X
3. Completed idle
4. Uncompleted idle

This form prepared by JOHN L. ZULBERTI

Approved by Deputy Supervisor

Note: Make in duplicate. One Copy only to S.F.

No. 13
Mr. Carl Doshay  
901 East 108th Street  
LOS ANGELES

Los Angeles Cal.  

November 6  19 51

Dear Sir:

Your proposal to drill Well No. 1 at
Section 3, T. 3 N., R. 15 W., S.B. & M., (East Placerita, Canyon Area) Type Los Angeles County,
dated Oct. 25, 1951, received Oct. 31 1951, has been examined in conjunction with records filed in this office.

Present conditions as shown by the records and the proposal are as follows:

THE NOTICE STATES

"Location of Well: 100 feet East along section line and 100 feet South at right angles to said line from the W2 corner of section 3
Elevation of ground above sea level 2000 feet

All depth measurements taken from top of derrick floor which is 5 feet above ground."

PROPOSAL

"PROPOSED CASING PROGRAM"
Size of Casing
Inches A.P.I.  Weight  Grade and Type  Top  Bottom  Cementing Depths
10"  36  Seamless  0  100 ft.  Cem.
6-5/8"  24"  "  800  Cem.

Intended zone or zones of completion: 800 to 1000 ft.
It is understood that if changes in this plan become necessary we are to notify you before running casing."

DECISION
THE PROPOSAL IS APPROVED PROVIDED THAT
1. A supplementary proposal shall be filed with this Division prior to drilling below 1000'. Additional requirements will be specified at that time.
2. Blowout prevention equipment, sufficient to provide a complete close-in of the well under pressure at any time, shall be installed and approved by this division.
3. Any hole to be sidetracked in any oil or gas zone shall be filled with cement, if possible.
4. THIS DIVISION SHALL BE NOTIFIED AS FOLLOWS:
   (a) To inspect the installed blowout prevention equipment before drilling below 500'.
   (b) To witness a test of the effectiveness of the 6-5/8" shut-off.
