History of Oil or Gas Well

OPERATOR: Camden Oil Company
FIELD: Placerita

Well No. Sweet #1, Sec. 31, T. 4N, R. 15W, S2, B. & M.

Signed: [Signature]

Date: 4-12-51

Title: Comptroller
(Title, President, Secretary or Agent)

It is of the greatest importance to have a complete history of the well. Use this form in reporting the history of all important operations at the well, together with the dates thereof, prior to the first production. Include in your report such information as size of hole drilled to cementing or landing depth of casings, number of sacks of cement used in the plugging, number of sacks or number of feet of cement drilled out of casing, depth at which cement plugs started, and depth at which hard cement encountered. If the well was dynamited, give date, size, position and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or buling.

Date: June 1, 1950

Plug - bottom at 1914 used 18½ sacks of cement and filled up to 1841

1949

12/22 Spudded In.
12/27 Drilled 127/8" rotary hole to 1517'.
12/28 Ran 1517' of 8-5/8", 321 lb., J=55, new seamless casing to 1517'.
    Cemented with 300 Sacks of cement (Last 100 treated).
12/29 Drilled out to top of plug at 1514'. Ran Johnston tester, combination
gun and packer on 32" drill pipe. Perforated 8-5/8" casing with 4, 1" Holes at 1511'. Set packer at 1490' with tailpiece to 1500'. Opened
    tester valve at 12:05 PM. Valve open 1 hr. Water shut = off above
    perforations at 1511' approved by inspector Paul Betts of the Division of
    OIL & GAS.
12/31 Drilled 7-7/8" hole to 1926'. Ran Schlumberger Electric Log to Bottom.

1950

1/1 Ran 443.41' of 5 7/8" 221 lb., J=55 Liner, including a Burns Liner Hanger, to
    1926'. Liner is perforated from 1520 = 1740, 1770 = 1885, and 1905 = 1926
    with 60 Mesh, 12 rows, 3" centers, 2" slots. Ran 2 1/2" Tubing to 1815.
1/4 Well placed on production.
Report on Proposed Operations

No. P 1-846

Los Angeles 15, Calif. June 29, 1950

Mr. Clyde E. Greathouse
Los Angeles 46, Calif.
Agent for CAMDEN OIL COMPANY

Dear Sir:

Your proposal to plug Well No. "Sweet" 1

Section 31, T. 11 N., R. 15 W., S.B., B. & M., Placerita Field, Los Angeles County, dated June 3, 1950, received June 7, 1950, has been examined in conjunction with records filed in this office.

Present conditions as shown by the records and the proposal are as follows:

COMPLETE WELL RECORD

8-5/8" casing 1517'; four 1 1/2" holes 1511', W.S.O.
5-1/2" Id. 1483'-1926', perf. 1520'-1740', 1770'-1885', and 1905'-1926'.
T. D. 1926'.

THE NOTICE STATES:

"The present condition of the well is as follows:
1. Complete casing record.
   8 5/8" - 0' to 1526'
   5 5/8" Blank - 1483' to 1520'
   5 5/8" Perfs. - 1520' to 1740'
   5 5/8" Blank - 1740' to 1770'
   Basket
   5 5/8" Perfs. - 1770' to 1885'
   5 5/8" Blank - 1885' to 1905'
   Basket
   5 5/8" Perfs. - 1905' to 1926'

2. Last produced 6/2/50 98.9 BBLS 22.7 16.9"

PROPOSAL:

"The proposed work is as follows:
Cement from 1841' to 1926' With Damp Baller."

DECISION:

THE PROPOSAL IS APPROVED.

NOTE: A complete report in duplicate on the enclosed forms should be filed with this division after the completion of the above work.

NOTE: Issuance of this report has been delayed pending receipt of certain corrected data, which were received on June 26, 1950.

Gentlemen:

This is to notify you that on December 5, 1951, the Eureka Company quitclaimed to the Eureka Refining Corporation those certain leases known as Sweet No. 1 and Sweet No. 2, located on Section 31, Twp. 4 North, Range 15 W.

Prior to the preacquisition of said leases, the Eureka Company removed the pumping equipment from Sweet No. 1. There has been no production from said lease since our acquisition, and the present status is standing suspended.

Yours very truly,

EUREKA REFINING CORPORATION

Gentlemen

We have been informed that during January 1952 you were quitclaimed wells No. "Sweet" 1 and "Sweet" 2, Sec. 31, T. 4 N., R. 15 W., S. B. B. & M., Placerita field, by Eureka Company.

Will you please write a letter to this office as soon as possible informing us if this is correct and, if so, please be sure to state the effective date of the transfer of the wells to you. Please also inform us what your plans are for the wells.

Please also include a brief legal description of the property upon which the wells are located.

The enclosed questionnaire should be completed and returned with your reply.

Yours truly,

Attention Mr. E. H. Mawser

Dear Mr. Mawser:

Our records show that the two wells in Placerita, Sweet #1 and Sweet #2 were quit-claimed to Eureka Refining Co. of Long Beach in January of 1952.

It is our impression that these wells are not producing since we turned them back because of failure to produce while we had them.

Yours very truly

C. D. Marolf, Bakersfield, California  
Warren L. Necker, 633 S. Spring LA 13

Gentlemen:

Sometime during the period May 1 to June 30, 1950, two wells in the Placerita field, namely Sweet #1 and Sweet #2, were plugged under your supervision. Camden Oil Company has record of paying you for services and materials in connection with such plugging.

After repeated requests for the information, the Department of Natural Resources, Division of Oil and Gas of the State of California, has advised Camden that unless the needed information is filed forthwith, legal action will be taken.

Unfortunately, the writer is only the bookkeeper for Camden, and is unable to supply the information wanted from what records exist in his possession. All that appears is invoices for services and materials, without description of the work performed.

Since all of you are quite familiar with the formal requirements of the DOG, actually it should be possible for you, singly or collectively to supply me with whatever is needed. I take this means of asking you to please answer this letter, giving me in detail all information you may have, or can get, which will assist me in straightening this matter out.

As the DOG has now patiently waited quite a long time, would you be so kind as to reply just as quickly as you can do so?

Yours very truly,

Mr. E. H. Musser  
Deputy Supervisor  
Department of Natural Resources  
Division of Oil and Gas  
1015 West Olympic Boulevard  
Los Angeles 15, California

Dear Mr. Musser:

I am in receipt of a copy of your letter to Mr. Clyde E. Greathouse, dated March 8, 1951, relating to the Camden Oil Company. Your office has informed me that I received this copy because your records show that I am a General Partner of Camden Oil Company.

Allow me to give you the correct information, which I also set forth in a letter dated February 9, 1950, to Mr. E. J. Kaplow of your Santa Paula office.

This is to advise you that I am not the general partner of the Camden Oil Company, nor have I ever been, nor do I desire to assume the duties and responsibilities of the general partner.

Mr. Greathouse, to whom the original copy of your letter of March 8, 1951, was directed, is, to my best knowledge, the general partner of the Camden Oil Company.

I would appreciate your correcting your records to this effect.

Yours very truly,

JOHN MASCHIO

Gentlemen:

Finally I have gotten some information on the matter referred to by you in your letter of 3-6-51, about which I called at your office in person, and subsequently sent you copy of my letters to various persons concerned.

Enclosed is report in duplicate covering data on each well (Sweet #1 and Sweet #2) which was plugged. This is the information given to me in response to my letter to Warren L. Meeker. I have not heard from either of the other parties, so that I am unable to check their report against that of Mr. Meeker.

If this is what you need, then the matter is closed. If not, please let me know, and I will get on my bicycle and go after the other parties in person.

Yours very truly,

CAMDEN OIL COMPANY

WELL SUMMARY REPORT

Operator: Camden Oil Company  
Field: Placerita

Well No. Sweet #1  
Sec. 31, T. 4N, R. 15W, S. B. & M.  
Elevation above sea level: 1808.0 feet.

Location: 115°30' & 695°35' S of NE Corner  
All depth measurements taken from top of Kelly Bushing, which is 7 feet above ground.

In compliance with the provisions of Chapter 93, Statutes of 1938, the information given herewith is a complete and correct record of the present condition of the well and all work done thereon, so far as can be determined from all available records.

Date: Feb. 15, 1950

History of Oil or Gas Well

Operator: Camden Oil Company
Field: Placerita

Well No: Sweet #1
Sec. 31, T. 4N, R. 15W, S.B.B. & M.

Date: Feb. 15, 1950

Signed: Clyde C. Shewmaker
Title: General Partner

It is of the greatest importance to have a complete history of the well. Use this form in reporting the history of all important operations at the well, together with the dates thereof, prior to the first production. Include in your report such information as size of hole drilled to cementing or landing depth of casings, number of sacks of cement used in the plugging, number of sacks or number of feet of cement drilled out of casing, depth at which cement plugs started, and depth at which hard cement encountered. If the well was dynamited, give date, size, position and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or bailing.

Date

12/22/49 Spud in.
12/27/49 Completed 12 ½" Hole to 1517'.
12/28/49 Ran 8 5/8" casing & Baker Shoe 1517'.
Cemented - 300 Sacks (last 100 treated).
12/29/49 Drilled to top of plug at 1514'
Ran Johnston Tester - 4 ½" Holes at 1511' - Set Packer at 1480'.
W.S.O. Inspection Approved # T-1-50715.
12/31/49 Completed 7 7/8" Hole to 1925'.
Ran Schlumberger.
1/1/50 Ran 443.41' of 5 3/4" Liner & Burns Hanger.
Ran 61 Joints of 2 ½" Upset Tubing & Pump Shoe to 1815'.
1/4/50 Well On Production
DEAR SIR:

Your well No. "Sweet" 1, Sec. 31, T. 4 N., R. 15 W., S.B. B & M. Placerita Field, in Los Angeles County, was tested for water shut-off on December 28, 1949, by Mr. Paul W. Batts, Inspector, designated by the supervisor, was present as prescribed in Secs. 3222 and 3223, Ch. 93, Stat. 1939; there were also present: Robin Willis, Engineer; E. Moroff, Drilling Foreman.

Shut-off data: 8-5/8" in. 32 lb. casing was cemented XXXX at 1517 ft. on December 28, 1949 in 12-1/4" in. hole with 275 sacks of cement

of which 1 sack was left in casing.

Casing record of well: 8-5/8" cas. 1517'; four 1/2" test holes at 1511', W.S.O.

Plugged

Present depth 1517 ft. plugged with cement from 1517 ft. to 1512 ft. Cleaned out to 1512 ft. for test. A pressure of XXX lb. was applied to the inside of casing for XXX min. without loss after cleaning out to XXX ft. A Johnston gun and tester was run into the hole on 3-1/2 in. drill pipe XXX with XXX ft. of water-mud cushion, and packer set at 1480 ft. with tailpiece to 1500 ft. Tester valve, with 3/8 in. bean, was opened at 12:05 p.m. and remained open for 1 hr. and XXX min. During this interval there was a light blow for 5 min.; light puffs for 5 min.; light heads for 10 min.; and no blow thereafter.

THE INSPECTOR ARRIVED AT THE WELL AT 2:00 P.M. AND MR. WILLIS REPORTED:
1. A 12-1/4" rotary hole was drilled from the surface to 1517'.
2. Electrical core readings showed the top of the objective oil sand at 1517'.
3. The 8-5/8" casing was shot-perforated with four 1/2" holes at 1511' for this test, and the test was made as noted above.

THE INSPECTOR NOTED:
1. When the drill pipe was removed, 70' of medium drilling fluid was found in the drill pipe above the tester, equivalent to 0.5 bbl.
2. The recording pressure bomb chart showed that the tester valve was open 1 hr.

The test was completed at 3:00 p.m.

THE WATER SHUT-OFF ABOVE THE PERFORATIONS AT 1511' IS APPROVED.

Mr. Clyde E. Greathouse
Los Angeles 56, Calif.

DECEMBER for CAMDEN OIL COMPANY

Dear Sir:

Your proposal to drill Well No. "Sweet" 1, Section 31, T. 4 N., R. 15 W., S.B. B. & M., Placerita Field, Los Angeles County, dated Dec. 23, 1949, received Dec. 23, 1949, has been examined in conjunction with records filed in this office.

Present conditions as shown by the records and the proposal are as follows:

THE NOTICE STATES:
"The well is 695 feet S. and 1115 feet W. from N.W. Corner Sec. 31
Elevation of ground above sea level to follow feet.
All depth measurements taken from top of , which is feet above ground.
We estimate that the first productive oil or gas sand should be encountered at a depth of about 1485 feet."

PROPOSAL:
"We propose to use the following strings of casing, either cementing or landing them as herein indicated:

<table>
<thead>
<tr>
<th>Size of Casing</th>
<th>Weight</th>
<th>Grade and Type</th>
<th>Depth</th>
<th>Landed or Cemented</th>
</tr>
</thead>
<tbody>
<tr>
<td>8 5/8</td>
<td>32 lb</td>
<td>J 55</td>
<td>1485</td>
<td>Cemented</td>
</tr>
<tr>
<td>5 1/2</td>
<td>17 lb</td>
<td>J 55</td>
<td>1930</td>
<td>Landed</td>
</tr>
</tbody>
</table>

Well is to be drilled with rotary tools.
It is understood that if changes in this plan become necessary we are to notify you before cementing or landing casing."

DECISION:
The proposed casing program and method of drilling are approved provided that this division is notified to witness a test of the 8-5/8" water shut-off.

The proposed location, however, is not approved because it does not comply with the provisions of Section 3600 of the Public Resources Code relating to the spacing of wells, and does not qualify under any of the exceptions thereto.

Notice of Intention to Drill New Well
This notice must be given and surety bond filed before drilling begins

Los Angeles Calif. Dec 23 1949

DIVISION OF OIL AND GAS
Los Angeles Calif.

In compliance with Section 3203, Chapter 93, Statutes of 1939, notice is hereby given that it is our intention to commence the work of drilling well No. 1, Sec. 31, T. 4 N., R. 15 W., S.B. B. & M., Placeita Field, Los Angeles County.

Legal description of lease

The well is located 670 feet N. or S., and 1081 feet E. or W. from N.E. Corner, Sec. 31.

Elevation of ground above sea level 220 feet.

All depth measurements taken from top of which is 1485 feet above ground.

We estimate that the first productive oil or gas sand should be encountered at a depth of about 1485 feet.

We propose to use the following strings of casing, either cementing or landing them as herein indicated:

<table>
<thead>
<tr>
<th>Size of Casing, Inches</th>
<th>Weight, Ib. Per Foot</th>
<th>Grade and Type</th>
<th>Depth</th>
<th>Landed or Cemented</th>
